## DETAILED ACTION

### *Location of Application*

1. The location of the subject application has changed. The subject application is now located in Group 1630, Art Unit 1634.

### *Claim Rejections - 35 USC § 103*

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-18 remain rejected under 35 U.S.C. 103(a) as being unpatentable over Still in view of Chenchik et al., Benson et al., Rothman et al., and Heller.

See the prior Office action for the basis of the rejection.

### Response to arguments

4. In response to applicant's arguments against the references individually (pages 2-5 of the response), one cannot show nonobviousness by attacking references individually where the rejections are based on combinations of references. See *In re Keller*, 642 F.2d 413, 208 USPQ 871 (CCPA 1981); *In re Merck & Co.*, 800 F.2d 1091, 231 USPQ 375 (Fed. Cir. 1986).
5. At page 6 of the response argument is advanced that "the laundry list of dyes recited in each of these references includes numerous dyes known to be ineffective in the present

invention.” Argument is also presented at page 7 that “[i]t cannot be known which, if any, of the listed compounds might be effective....” The above argument has been fully considered and has not been found persuasive towards the withdrawal of the rejection as claim 1, for example, only requires the use of a “mixture of lanthanide dyes.” No limitation on the type or functional characteristic of the lanthanide dye is recited. Accordingly, applicant is in effect arguing limitations not present in the claims.

### ***Conclusion***

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).
7. A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
